1. Claims 1-4 and 6-20 are allowable over the prior art of record.
2. The Substitute Specification of 24 September 2008 has been ENTERED.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Dependent claim 5 is indefinite and unclear in that it is mis-descriptive of the invention. Particularly, it is noted that claim 5 recites a "processor" (line 2) and then has functional language that defines the actions of the processor (lines 2-4). In that the ordinary meaning of "processor" is a device which is controlled by means of software and in that there is no recitation that the functional language is describing software in the recited "processor," claim 5 fails to make clear and definite what is being claimed. Please see MPEP 2173 and 37 CFR 1.75(d)(1). Is claim 5 directed to a processor with software that performs the functions recited in claim 5 or is claim 5 directed to some hardwired device? It is suggested that the body of claim 5 could be rewritten "a processor that is programmed with software to determine if the length of the base of the approximate isosceles triangle is smaller than the beam width of a main lobe of the beam, and if this condition is true, to cause an azimuth corresponding to the

vertex of the approximate isosceles triangle not to be treated as a central azimuth of the target."

5. Claim 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernarr E. Gregory whose telephone number is (571) 272-6972. The examiner can normally be reached on weekdays from 6:30 AM to 3:00 PM.
